(a) Closed-loop execution with AG3S

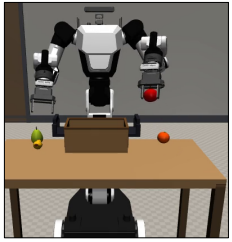

"Put the apple in the basket."

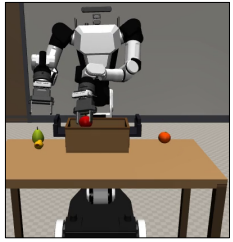

Start

Contact links reach target

Grasp and lift

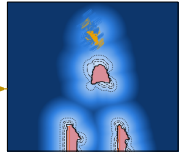

Place in basket

VLA attention

3D target vs. obstacle split (pending)

Target extent

Link-specific field

No external segmenter; VLA stays frozen

(b) Same scene, three controllers

pending run

VLA only: collides with obstacle

pending run

Geometry-only filter: refuses the grasp

pending run

AG3S: grasps target, avoids obstacle
